

Precision agriculture technologies to optimize canopy management and sustainable crop protection in fruit orchards (PAgFRUIT)

PAgFRUIT was a Research Project funded by the **Spanish Ministry of Science, Innovation and Universities** [

<http://www.ciencia.gob.es/portal/site/MICINN/menuitem.7eeac5cd345b4f34f09dfd1001432ea0/?vgnextoid=f1e811>], under the Plan for Scientific and Technical Research and Innovation 2017-2020 R+D+I Program Oriented to the Challenges of Society ([Spanish Research Agency](http://www.ciencia.gob.es/portal/site/MICINN/aei) [<http://www.ciencia.gob.es/portal/site/MICINN/aei>]) (Project Code **RTI2018-094222-B-I00**). The project was addressed to **Precision and Sustainable Fruit Production**. The project continued previous work on Precision and Sustainable Fruit Production of the **Research Group on AgroICT and Precision Agriculture (GRAP, University of Lleida)** [<http://www.grap.udl.cat/>], to which the major part of the research team and of the working plan team belong. The project was active from 01/01/2019 till 30/09/2022.
